Meet The Owner, George Born

George Born started painting when he was 16 years old for his uncle's contracting business. Shortly thereafter, he worked for a large painting contractor. In 1995, he decided to go into business for himself with the commitment to ALWAYS put quality first and not skip any steps in great painting. With this commitment, his business grew rapidly, and he established a very successful company.

In 2009, George and his wife moved to Wake Forest to be with their children and grandchildren. The same commitment to quality painting led the way, and now Creative Painting Systems continues to grow stronger every year. He is proud to serve all of Wake County and the surrounding communities. George's dedication to his work is what "sets him apart" in Wake County. He personally manages every job, and his quality work on every job speaks for itself. When not hard at work, George likes to spend time fishing, traveling and enjoying his family.
